Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 03 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on the date of application.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-43 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1-11, 17, 18, 21-24, 26-33 and 36-43 is/are rejected.
- 7) ☒ Claim(s) 12-16, 19, 20, 25, 34 and 35 is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

DETAILED ACTION

Claim Rejections - 35 USC § 112

I. Claim 22 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

i. Claim 22 recites the limitation "the second bonding layer" in line 3. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

II. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

A. Claims 1-11 and 26-33 are rejected under 35 U.S.C. 102(b) as being anticipated by Steusloff et al., US No. 4,739,998 ("Steusloff").

i. Steusloff discloses a sealing ring (FIG. 3) comprising an annular disk (13) comprising at least one fastening part (connected to 9) and at least one sealing part (contacting 7) that, when the sealing ring is mounted, sealing rest against a second machine part (FIG. 3).

ii. The annular disk (13) is fastened without intermediate positioning of a supporting body on the first machine part (9).

Art Unit: 3676

- iii. The seal ring forms a rotary shaft seal, between stationary and movable first and second machine parts (FIG. 3).
- iv. There is a first bonding layer (15) attached to the annular disk, the annular disk (13) being connected with the first bonding layer to the first machine part (FIG. 3).
- v. The first bonding layer is an adhesive film (col. 3, line 37).
- vi. The bonding layer is annular, with the fastening part on an outer annular section of the annular disk (FIG. 3).
- vii. The bonding layer extends from a radial outer edge of the fastening part up to (i.e. not more than) half a radial width for protecting the first bonding layer.
- viii. The sealing ring comprises a protective part (flange portion of 9 extending radially inward).
- ix. Examiner Note: "configured to be fastened by a mounting tool" is given little patentable weight because the limitation represents a step for assembly in a product claim. The limitations directed towards the tool is given little patentable weight

Claim Rejections - 35 USC § 103

III. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3676

A. Claim 17, 18, 21, 23, 24 and 36-43 are rejected under 35 U.S.C. 103(a) as being unpatentable over Steusloff in view of Sovia, US No. 5,209,502 ("Sovia").

i. Steusloff discloses substantially the same seal as applicant except for the at least one sealing part having a first lip and a second lip pointing in opposite directions.

ii. Sovia teaches such an arrangement in order to provide sealing in two directions.

iii. It would have been obvious to one of ordinary skill in the art at the time of applicants invention to modify Steusloff as taught by Sovia in order to provide sealing in two directions.

Allowable Subject Matter

IV. Claims 12-16, 19, 20, 25, 34 and 35 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
